

Mobile Development

This document outlines the diverse range of high-performance mobile applications developed by Clever Crow Strategies LLP. Our portfolio spans several critical industries, including Real Estate, E-commerce, Food Delivery, Travel, and Education, showcasing our ability to deliver scalable and user-centric digital solutions.

Real Estate Solutions

We build comprehensive platforms that streamline the process of buying, selling, and renting properties, incorporating real-time data and AI-driven insights.

Application Name	Platforms	Key Features
Propin	Android (Play Store) / iOS (App Store)	Real estate networking platform for professional connections.
Redfin (Redfine)	Android (Play Store) / iOS (App Store)	Real-time MLS data updates every 2 minutes and AI assistant "Ask Redfin" for listing queries.
ACN for Real Estate	Android (Play Store) / iOS (App Store)	Dedicated tool for real estate agents to manage listings and client networks.
Trulia	Android (Play Store) / iOS (App Store)	Comprehensive property search and neighborhood insight platform.

E-commerce Platforms

Our e-commerce solutions focus on curated shopping experiences, worldwide accessibility, and secure mobile transactions.

Application Name	Platforms	Key Features
MaviGadget	Android (Play Store) / iOS (App Store)	Discovery platform for unique, hand-picked products with worldwide free shipping.
ALPAKA	Android (Play Store) / iOS (App Store)	High-end shopping platform for ultra-functional bags and travel gear.
Banggood	Android (Play Store) / iOS (App Store)	Global online shop offering a wide variety of consumer goods.
Krave Mart	Android (Play Store) / iOS (App Store)	Rapid grocery delivery service focused on speed and convenience.

Food Delivery Services

We design delivery applications that bridge the gap between local vendors and consumers with features like real-time tracking and specialized dietary filtering.

Application Name	Platforms	Key Features
Grubhub	Android (Play Store) / iOS (App Store)	Real-time order tracking and fee-free delivery on eligible large orders.

Application Name	Platforms	Key Features
Just Eat	Android (Play Store) / iOS (App Store)	Integrated "Food Tracker" with push notifications for delivery status updates.
Cookr	Android (Play Store) / iOS (App Store)	Marketplace for authentic home-cooked meals with specific dietary filters.
Bolt Food	Android (Play Store) / iOS (App Store)	Efficient restaurant and grocery delivery platform.

Travel & Hospitality

Our travel applications empower users to book accommodations globally, offering everything from last-minute deals to specialized corporate booking tools.

Application Name	Platforms	Key Features
HotelTonight	Android (Play Store) / iOS (App Store)	Specialized in last-minute bookings with "Daily Drop" exclusive 15-minute discounts.
RateHawk	Android (Play Store) / iOS (App Store)	B2B tool for travel professionals with over 2.5 million properties globally.
ZenHotels	Android (Play Store) / iOS (App Store)	All-in-one booking for hotels and hostels with 24/7 support and offline confirmations.

Application Name	Platforms	Key Features
Traveloka	Android (Play Store) / iOS (App Store)	Comprehensive lifestyle platform for flight and hotel bookings.

Educational Technology

We develop smart learning tools that utilize AI for content generation and personalized preparation for competitive exams.

Application Name	Platforms	Key Features
StudySmarter	Android (Play Store) / iOS (App Store)	Uses AI to generate flashcards and mock exams with spaced repetition for better retention.
UPSC Exam Prep	Android (Play Store) / iOS (App Store)	Features "smart-books," MCQ tests, and personalized analytics for civil service aspirants.
Top Hat	Android (Play Store) / iOS (App Store)	Interactive learning platform for enhanced student engagement.
StudyDrive	Android (Play Store) / iOS (App Store)	Collaborative platform for sharing study materials and academic resources.
